

Pro Power—even sharpens split-point and 135° bits

500X

Potencia profesional—incluso afila brocas de punta hendida y de 135°

Sharpens 3/32"–1/2" standard-twist bits; high-speed steel, masonry, carbide, cobalt, TiN-coated, and split-point; also 118° and 135° bits

Afila brocas estándar de 2.5–13mm (3/32–1/2"); brocas de acero para alta velocidad, para mampostería, de carburo, de cobalto, con revestimiento de TiN, y puntas hendidas; además brocas de 118° y 135°

E-Z Align System™—assures correct sharpening alignment, even small bits.

Variable point angle—choose 118° or 135°.

Sistema E-Z Align™—garantiza la alineación correcta para el afilado, incluso con brocas pequeñas.

Ángulo variable de las puntas—elija entre 118° ó 135°.

Variable Alignment—lets you adjust chisel and relief angle.

Alineación Variable—le permite ajustar el ángulo de cincel y de relieve.

Patented dual-cam sharpening system—professionally sharpen your bits with a few easy turns.

Sistema patentado de afilado con leva doble—afile profesionalmente las brocas con tan sólo unos giros.

Tool-grade plastic casing—double insulated and impact resistant.

Caja de plástico del tipo para herramientas—doble aislamiento y resistente a los impactos.

Diamond sharpening wheel—long-lasting wheel is easy to replace after several hundred sharpenings.

Muela de afilado adiamantada—muela duradera, fácil de reemplazar después de varios cientos de afiladas.

Create self-centering split points in any drill bit—new system eliminates oversplit bits.

Cree puntas hendidas que se centran solas en cualquier broca—nuevo sistema que elimina las brocas con hendidura excesiva.

Powerful 15,000 rpm motor.
Potente motor de 15,000 rpm.

Improved chuck design—front-loading chuck holds 3/32"–1/2" (2.5mm–13mm) drill bits for precision geometry; makes small bits easy to align.

Diseño mejorado del portabrocas—portabrocas de carga frontal con capacidad para brocas de 2.5mm a 13mm (3/32"–1/2") para geometría de precisión; facilita la alineación de las brocas pequeñas.

The DD500X shop model is designed for durability and has the flexibility required to sharpen the largest range and most popular sizes of dull or broken bits-including split points and masonry bits. Increase capacity with optional 3/4" chuck accessory.

New "Push to Stop" design on the drill point splitting port will not allow you to over split the bit point.

- User replaceable diamond sharpening wheel design for simple replacement. "No tool needed"
 - One piece alignment system improves precision, and adjustability.
 - Longer jaws hold bit more precisely and jaw guides eliminate jaw twisting on small bits.
 - Cast aluminum point angle shuttle for added durability
 - For the serious drill bit user – DIY, hobbyist, and professional
 - Sharpens 3/32" – 1/2" drill bits
 - Sharpens High-speed Steel, Carbide, Cobalt, TiN-coated and Masonry bits
 - Can sharpen 3/32" – 1/2" reverse-twist (left-hand) drill bits with optional accessory (special order only)
 - Includes professional hard-shell carrying case
